**INTO YOUR FUTURE**

## **Thank you for choosing Tellur!**

Please, read this user manual carefully before using the product and keep it safe for future references.

Please, note! Damages caused by misuse of the product will not be covered by the product's warranty.

### **1. Main Features**

1. A minimalist solution for using your flash drive or other standard USB-A devices with USB-C phones, tablets, and laptops.
2. Reversible USB-C connector that plugs in either direction.
3. Transfer movies, music, and more in just seconds with 10 Gbps transfer speeds.
4. Compact and smart. No installation or drivers required, just plug and play.

## 2. Product Specifications

Connector type: USB-A (female) - USB-C (male)

Power output: 5V-20V/3A

Data transfer speed: Up to 10Gbps

Compatible with: Most of laptops/tablets/smart-phones with a USB-C port

Color: Grey

Material: Aluminum alloy

Dimensions: 31\*17\*7.3mm

Package includes:

1 x USB-C (male) to USB-A (female) adapter,

1 x Manual

Product weight: 5.3g

## 3. Operating instructions

This adapter will help you transform any USB-C port into one compatible with USB-A devices.

With the help of the adapter, the USB-C port becomes a USB 3.0 port and allows the connection of USB-A drives, keyboard, mouse, game controller, external hard disk, etc.

## Disposal and recycling information

The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in the normal waste stream with household garbage.

It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.

Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
